

Have Yourself a Merry Little Fracking (to the tune of "Have Yourself a Merry Little Christmas")

© 2012 N. Starr

Have yourself a job with perks and bennies,
Leave the DEP
From now on,
You'll close your eyes to all you see.

Have yourself some campaign contributions,
Take our fracking dough
From now on,
You'll be our little bitch, you know.

Here we are as in olden days,
Robber baron days of yore.
Your concerns don't mean squat to us
It's just biz to us for sure.

What the years
Will bring to all your children,
We don't know and how
We're just grabbing all
The gold that you'll allow.
Bend over for
A merry little fracking now.
