Subject: Carter Road - Gas Migration

Untitled.zip (379
KB)

Gentlemen -

As part of this investigation and for the safety of the residents in this area I would like you to check the basements for explosive gas. At a minimum, any home with a basement along Carter Rd from Switzer to Fiorentino should be checked. When talking with the resident please let them know this is part of our investigation and a precautionary step we are taking. If they are not home please your business card. Attached is a map with some of the residents along Carter Rd. If you have any questions please see me.

Thank you,
Craig.
