

Why we fight:

The major issues surrounding fracking are climate change, water contamination, air pollution, negative health impacts on those living near and 'downstream' from wells and other facilities (including impacts to workers), environmental degradation, political corruption and the fact that those who profit from fracking are not the same as those who suffer and have to pay for the consequences. Besides, we care about the future!

What we are doing:

Advocating for action and educating the public

DCS' website is "deep-dish" information

Case No. 17-1800
IN THE UNITED STATES COURT OF APPEALS FOR THE THIRD CIRCUIT
WAYNE LAND AND MINERAL GROUP LLC
Appellant
v.
DELAWARE RIVER BASIN COMMISSION
Appellee, and...

*Appeal from the March 23, 2017 Order
of the United States District Court for the Middle District of Pennsylvania*

**AMICUS CURIAE BRIEF BY DAMASCUS CITIZENS FOR
SUSTAINABILITY, INC** IN SUPPORT OF DELAWARE RIVER BASIN
COMMISSION

John J. Zimmerman
Attorney for Amicus, Damascus Citizens for Sustainability, Inc.

DCS Amicus to WLMG appeal on the health impacts of fracking

Filing important legal actions on the state and federal levels

Educating policymakers and media

Former NYC DEP commissioner, and now DCS watershed expert, Al Appleton testifies before the New York City Council

Working to help impacted families and communities get notice and relief

The screenshot shows the DCS website header with the logo and tagline "CLEAN WATER, AIR AND LAND ARE BASIC HUMAN RIGHTS". The main heading is "Natural Gas Exploration and Production Health & Community Impacts Survey". Below this is a navigation bar with links for "Survey Information Menu", "Letter of Invitation from the Director", and "Damascus Citizens home". There are social media icons for Facebook and Twitter, and a link for "About Damascus Citizens". A central text block asks, "Are you, your family, your neighbors and community living near Natural Gas Drilling, Exploration & Production sites and activities?". To the right is a red button that says "Choose the Survey version that suits you best:". At the bottom of the screenshot is a grey banner with the text "The DCS Health and Community Impacts Survey".

AND making sure we all have the tools to go in a better direction.

This is the HOTTEST year on record, but renewables are gaining and we are more aware, stronger and making advances daily. Drilling/mining is slowing, and company values are falling as the gas/oil bubble is bursting.
