Proposed Draft Regulations Addressing Hydraulic Fracturing and Additional Clarifying Amendments

Dangers of Vertical oil gas Wells - the 2010 Reports - part 2 of 3

Continuing the comment begun in Part 1, This part has 4 of the 8 Reports submitted by Damascus Citizens for Sustainability and Delaware RiverKeeper Network attached. They are important information and give reasons to stress that NO gas or oil drilling should be allowed in the Delaware Basin. The proposed prohibition of high volume hydraulic fracturing is good and should be adopted, but additionally all - even low volume and/or vertical wells should also be prohibited.

Adams^[L]_[SEP]Bishop - report and PA record of gas industry violations, plus 6 spread-sheets of violations found here:
