subj: Application 7-0346-00218/00001 SMCC LIB Recycling Facility

Dear Mr. Dlugolenski,

My name is -----.

I (live, work, go to school, have family who live, etc) in Endicott.
(or) I live in (Endwell/JC/Vestal/Binghamton) downwind of the proposed facility in Endicott.

I am very concerned about the proposed **SMCC battery incinerator** in the center of a populated area. Several of the chemicals with a "Potential to Emit" are **CANCER CAUSING**, endocrine disruptors, or destroy lung tissue (e.g., sulfuric acid).

My request and demands are that DEC:

- **Stop treating Endicott like a 3rd world dumping ground.**
- **SLOW DOWN the Fast-Track!**
- **Significantly Extend the Comment Period**
- **Hold a Public Hearing in Endicott!**
- **Conduct a FULL Type-1 SEQR environmental review including an Environmental Impact Statement**
- **Invoke CP-29: Environmental Justice!**
- **DEC TRANSPARENCY: Publish the Permit Docs on the INTERNET!**
- **Raise the Stack Height by at least 200'**
- **Baseline Ambient Air Test**
- **The Applicant should clearly state FUTURE PLANS, e.g., "Solvent Extraction"**
- **CONTINUOUS AIR MONITORING! Multiple sites.**
- **You must PROVE to this community: ZERO HARMFUL EMISSIONS!**

Thank you,
